*Federal Housing Finance Board Announces  
Mortgage Index Rate*

Washington, D.C. -- The Federal Housing Finance Board today announced that the final June value of the National Average Contract Mortgage Rate for the Purchase of Previously Occupied Homes by Combined Lenders was 7.10 percent. This is an increase of 0.02 percent from the May value. Many lenders use this rate in adjusting some adjustable-rate mortgages. This index was the only index rate that Federally chartered savings and loan associations could use as an adjustable-rate mortgage index in the early 1980s. For many years, this index was made available by the former Federal Home Loan Bank Board, and later by the Office of Thrift Supervision.

Interested parties can receive up-to-date information on this index value by calling (202) 408-2940. The July index value will be announced on August 28, 2001. The following table displays the history of this index for the past 13 months.
